

## EVRI TO INVEST £50 MILLION IN SMART PARCEL LOCKER NETWORK

Evri plans to install 10,000 new smart lockers across the UK by 2030, aiming to expand its ParcelShop and locker network to 25,000 locations. The lockers will offer features like NFC, label printers, sensors, and 24/7 access to meet the 500% year-on-year increase in usage. [Read more >>>](#)

## AUSTRALIA POST LAUNCHES NEW POST OFFICE FORMAT TO CATER FOR PARCEL DEMAND

Australia Post has launched a new post office concept called "Australia Post Parcels," focused solely on parcel services. Pilot locations in Fitzroy (Melbourne) and Waterloo (Sydney) offer 24/7 self-service kiosks, lockers, and staffed counters to enable parcel sending, collection, and returns—designed to meet the growing demands of e-commerce.

## FEDEX PARCELS NOW ACCEPTED AT POSTNL LOCKERS

FedEx has partnered with PostNL to allow customers in the Netherlands to send and return parcels via over 1,100 parcel lockers, accessible 24/7. With an additional 500 lockers planned, this significantly expands FedEx's existing network of around 700 pickup points and reflects a near doubling in consumer preference for out-of-home delivery options. ## ROYAL MAIL TO ROLL OUT LOCKERS AT 100 CO-OP STORES

Royal Mail is rolling out parcel lockers at 100 Co-op convenience store locations this summer. These lockers will allow customers to drop off pre-labelled parcels and returns 24/7, with collection functionality coming soon—boosting Co-op's locker count to over 900. [Read more >>>](#)

## BRING DEPLOYS FIRST HEAVY-DUTY MAN ELECTRIC TRUCK

IBring has deployed a heavy-duty 40-ton MAN eTGX electric truck, marking a step toward zero-emission long-haul transport. MAN has started series production of its eTruck line and aims to deliver over 1,000 units by the end of 2025. [Read more >>>](#)

## ROYAL MAIL REDUCES PER-PARCEL EMISSIONS BY 20% IN 2024-2025

According to its latest ESG report, Royal Mail achieved a 20% reduction in average emissions per parcel, decreasing from 206gCO<sub>2</sub>e to 165gCO<sub>2</sub>e over the past year. This improvement was driven by increased use of HVO biofuel, deployment of 1,900 electric vans, energy efficiency initiatives, and a significant reduction in domestic air freight. [Read more >>>](#)

## DHL GROUP TO INVEST MORE THAN €500M IN THE MIDDLE EAST

DHL Group has announced plans to invest over €500 million in the Middle East to enhance its logistics infrastructure. The investment covers new distribution centers, digitalization efforts, and sustainability initiatives aimed at supporting the region's rapidly growing e-commerce volumes.

## AI AND SOCIAL MEDIA RESHAPING ONLINE SHOPPING

DHL eCommerce's 2025 E-Commerce Trends Report, based on insights from 24,000 online shoppers across 24 key global markets, highlights the transformative impact of AI and social media on online shopping. The report reveals that 70% of consumers expect to shop primarily through social media by 2030, and 72% consider sustainability when making online purchases. Additionally, 81% of consumers abandon their cart if their preferred delivery option isn't available, and 79% would leave if the return process doesn't meet expectations. These findings underscore the critical role of logistics in shaping the future of e-commerce.
